

ICT Responsible use agreement

When using information & communications technologies (ICT) at Shirley Boys' High School I will always be a good digital citizen. This means that I;

Will be a confident and capable user of ICT.

I know what I do and do not understand about the technologies that I use. I will get help where I need it.

Will use ICT for learning as well as other activities.

I understand that technology can help me to learn. I also know it can also be used to talk to people, to buy and sell things and to have my opinion heard. I know when and where it is OK to do each one.

Will think carefully about whether the information I see online is true.

I know that it is easy to put information online. This means that what I see is not always right. I will always check to make sure information is real before I use it.

Will be able to speak the language of digital technologies.

When people talk online the things they say can be quite different from a conversation they might have if they were sitting next to each other. I know that I must try to understand what people are saying before I react to them. If I am not sure, I can ask them or someone else to explain.

Understand that I may experience problems when I use technology but that I will learn to deal with them.

I understand that there will be times when technology may not work as I expected it to, or that people may be mean or unkind to me online. When these things happen, I know that there are ways I can deal with it. I also know there are people I can go to, to get help if I don't know what to do next.

Will always use ICT to communicate with others in positive, meaningful ways.

I will always talk politely and with respect to people online. I know that it is possible to bully or hurt people with what I say and do on the internet. I will think about the effect that my actions have on other people.

Will be honest and fair in all of my actions using ICT.

I will never do anything online that I know will hurt anyone. I will make sure what I do is not against the law. I will make sure that my actions don't break the rules of the websites that I use. When I am not sure about what I am doing I will ask for help.

ICT Responsible use agreement

Will always respect people's privacy and freedom of speech online.

I understand that some information is private. I will be careful when using full names, birthdays, addresses and photos of other people and of my own. I also know that I will not always agree with what people say online but that does not mean that I can stop them or use it as an excuse to be unkind to them.

Will help other to become a better digital citizen.

Being a good digital citizen is something that we all have to work at. If I know that my friends are having problems online, I will try to help them. If I see that someone is being unfairly treated online then I will speak up rather than just watch it happen.

Student Declaration

I understand that these guidelines for responsible use are to be followed when using any technology whilst at school or whilst on any school activity. I am aware that this may include the use of a device that the school does not own.

I know that if my actions or behaviours do not align with the User Agreement there may be consequences.
